# CMIP6 Model Documentation

Institute: NOAA-GFDL
Model: GFDL-ESM2M
Topic: Atmosphere

**Doc. Generated**: 2018-04-12

**Doc. Seeded From**: cmip5:gfdl-esm2m

Specialization Version: 1.0.2

Further Info: https://es-doc.org/cmip6

**Note**: \* indicates a required property

# **Documentation Contents**

| 1 | Key  | Properties 1                    |
|---|------|---------------------------------|
|   | 1.1  | Key Properties                  |
|   | 1.2  | Resolution                      |
|   | 1.3  | Timestepping                    |
|   | 1.4  | Orography                       |
| 2 | Grio | 1                               |
|   | 2.1  | Grid                            |
|   | 2.2  | Discretisation                  |
|   | 2.3  | Horizontal                      |
|   | 2.4  | Vertical                        |

# 1 Key Properties

Atmosphere key properties

| 1.1 | $\mathbf{Kev}$ | Pro | $\mathbf{c}$ |
|-----|----------------|-----|--------------|
|     |                |     |              |

Atmosphere key properties

### 1.1.1 Name \*

 $Name\ of\ atmos\ model\ code$ 

# 1.1.2 Keywords \*

 $Keywords\ associated\ with\ atmos\ model\ code$ 

Enter COMMA SEPERATED list:

### 1.1.3 Overview \*

Overview of atmos model.

Enter TEXT:

# 1.1.4 Model Family \*

 $Type\ of\ atmospheric\ model.$ 

| $\boxtimes$ | AGCM - Atmospheric General Circulation Model |
|-------------|--|
|             | ARCM - Atmospheric Regional Climate Model    |
|             | Other - please specify:                      |

# 1.1.5 Basic Approximations \*

 $Basic\ approximations\ made\ in\ the\ atmosphere.$ 

| $\triangle$ | Primitive equations     |
|-------------|-------------------------|
|             | Non-hydrostatic         |
|             | Anelastic               |
|             | Boussinesq              |
| $\boxtimes$ | Hydrostatic             |
|             | Quasi-hydrostatic       |
|             | Other - please specify: |

# 1.2 Resolution

 $Characteristics\ of\ the\ model\ resolution$ 

#### 1.2.1 Overview

Overview of characteristics of the model resolution in atmos model.

Enter TEXT:

#### 1.2.2 Horizontal Resolution Name \*

This is a string usually used by the modelling group to describe the resolution of the model grid, e.g. T42, N48.

Enter TEXT:

#### 1.2.3 Canonical Horizontal Resolution \*

Expression quoted for gross comparisons of resolution, e.g. 2.5 x 3.75 degrees lat-lon.

Enter TEXT:

# 1.2.4 Range Horizontal Resolution \*

Range of horizontal resolution with spatial details, eg. 1 deg (Equator) - 0.5 deg

Enter TEXT:

### 1.2.5 Number Of Vertical Levels \*

Number of vertical levels resolved on the computational grid.

Enter INTEGER value:

# 1.2.6 High Top \*

 $Does \ the \ atmosphere \ have \ a \ high-top? \ High-Top \ atmospheres \ have \ a \ fully \ resolved \ stratosphere \ with \ a \ model \ top \ above \ the \ stratopause.$ 

| Sele | ct either | TRUE | $\mathbf{or}$ | FALSE: |
|------|-----------|------|---------------|--------|
|      | True      |      |               | False  |

# 1.3 Timestepping

Characteristics of the atmosphere model time stepping

#### 1.3.1 Overview

Overview of characteristics of the atmosphere model time stepping in atmos model.

Enter TEXT:

#### 1.3.2 Timestep Dynamics \*

 ${\it Timestep \ for \ the \ dynamics \ in \ seconds}$ 

600

# 1.3.3 Timestep Shortwave Radiative Transfer

Timestep for the shortwave radiative transfer in seconds.

Enter INTEGER value:

# 1.3.4 Timestep Longwave Radiative Transfer

Timestep for the longwave radiative transfer in seconds.

Enter INTEGER value:

#### Orography 1.4

Characteristics of the model orography

#### 1.4.1 Overview

 $Overview\ of\ characteristics\ of\ the\ model\ orography\ in\ atmos\ model.$ 

Enter TEXT:

| Line   | I IEXI.   |  |  |  |
|--|---|--|--|--|
| 1.4.2  | Type *  |  |  |  |
| Type of o  | prographic representation.                              |  |  |  |
|  | Fixed: present day                                      |  |  |  |
|  | Fixed: modified - Provide details of modification below |  |  |  |
|  | Other - please specify:                                 |  |  |  |
| 1.4.3 Modified  If the orography type is modified describe the adaptation. |   |  |  |  |
| Select MULTIPLE options:   |   |  |  |  |
|  | Related to ice sheets                                   |  |  |  |
|  | Related to tectonics                                    |  |  |  |
|  | Modified mean   |  |  |  |

Modified variance if taken into account in model (cf gravity waves)

# 1.4.4 Time-varying

Describe any time varying orographic change

Other - please specify:

Enter TEXT:

# 2 Grid

 $Atmosphere\ grid$ 

# 2.1 Grid

 $Atmosphere\ grid$ 

### 2.1.1 Name

 $Name\ of\ grid\ in\ atmos\ model.$ 

Enter TEXT:

### 2.1.2 Overview

Overview of grid in atmos model.

Enter TEXT:

# 2.2 Discretisation

 $Atmosphere\ grid\ discretisation$ 

#### 2.2.1 Overview

Overview of atmosphere grid discretisation in atmos model.

Enter TEXT:

# 2.2.2 Overview \*

Overview description of grid discretisation in the atmosphere

Enter TEXT:

# 2.3 Horizontal

Atmosphere discretisation in the horizontal

# 2.3.1 Scheme Type \*

 $Horizontal\ discretisation\ type$ 

|             | Spectral               |

# 9 Gravity Waves

Characteristics of the parameterised gravity waves in the atmosphere, whether from orography or other sources

# 9.1 Gravity Waves

 $Characteristics\ of\ the\ parameterised\ gravity\ waves\ in\ the\ atmosphere,\ whether\ from\ orography\ or\ other\ sources$ 

### 9.1.1 Name

Commonly used name for the gravity waves in atmos model.

Enter TEXT:

### 9.1.2 Overview

Overview of characteristics of the parameterised gravity waves in the atmosphere, whether from orography or other sources in atmos model.

Enter TEXT:

| 9.1.3     | Sponge Layer *  |
|-----------|---|
| Sponge la | yer in the upper levels in order to avoid gravity wave reflection at the top. |
| Selec     | t SINGLE option:  |
|           | Rayleigh friction   |
|           | Diffusive sponge layer  |

## 9.1.4 Background \*

Background wave distribution

| Sele | ct SINGLE option:       |
|------|-------------------------|
|      | Continuous spectrum     |
|      | Discrete spectrum       |
|      | Other - please specify: |

## 9.1.5 Subgrid Scale Orography \*

Other - please specify:

Subgrid scale orography effects taken into account.

| rea scare orography effects taken thio account. |   |  |  |
|---|---|--|--|
| $\boxtimes$                                     | Effect on drag  |  |  |
|   | Effect on lifting   |  |  |
|   | Enhanced topography - To enhance the generation of long waves in the atmosphere |  |  |

| Other - please specify:  |
|--|
| 9.2 Orographic Gravity Waves   |
| Gravity waves generated due to the presence of orography                             |
| 9.2.1 Overview   |
| Overview of gravity waves generated due to the presence of orography in atmos model. |
| Enter TEXT:  |
| 9.2.2 Name   |
| Commonly used name for the orographic gravity wave scheme                            |
| Enter TEXT:  |
| 9.2.3 Source Mechanisms *  |
| Orographic gravity wave source mechanisms  |
| Linear mountain waves  |
| Hydraulic jump   |
| Envelope orography   |
| Low level flow blocking  |
| Statistical sub-grid scale variance  |
| Other - please specify:  |
| 9.2.4 Calculation Method *   |
| Orographic gravity wave calculation method   |
| Non-linear calculation   |
| ☐ More than two cardinal directions  |
| Other - please specify:  |
| 9.2.5 Propagation Scheme *   |
| Orographic gravity wave propogation scheme   |
| Linear theory  |
| Non-linear theory  |
| ☐ Includes boundary layer ducting  |
| Other - please specify:  |
|  |

| 9.2.6                    | Dissipation Scheme *   |  |  |  |
|--------------------------|--|--|--|--|
| Orograph                 | ic gravity wave dissipation scheme   |  |  |  |
|                          | Total wave   |  |  |  |
| $\boxtimes$              | Single wave  |  |  |  |
|                          | Spectral   |  |  |  |
|                          | Linear   |  |  |  |
|                          | Wave saturation vs Richardson number   |  |  |  |
|                          | Other - please specify:  |  |  |  |
| 9.3                      | Non Orographic Gravity Waves   |  |  |  |
| Gravity                  | waves generated by non-orographic processes.                                       |  |  |  |
| 9.3.1                    | Overview   |  |  |  |
| Overview                 | $of\ gravity\ waves\ generated\ by\ non-orographic\ processes.\ in\ atmos\ model.$ |  |  |  |
| Ente                     | r TEXT:  |  |  |  |
| 9.3.2                    | Name   |  |  |  |
| Common                   | ly used name for the non-orographic gravity wave scheme                            |  |  |  |
| Ente                     | r TEXT:  |  |  |  |
